

I would like to speak out in opposition to any proposal that would lessen Indiana's Telephone Privacy law protections. Since implementation, I have received only 1 or 2 nuisance calls per week; as opposed to the 15 to 20 I used to receive. It was a tremendous inconvenience to receive the calls all day long. Running to the phone numerous times per day only to receive an unsolicited sales call was frustrating. The Indiana law has made our time at home much more comfortable. Thanks for your consideration of my comments.
